

Go to <https://filezilla-project.org> and download the Mac OS X client. Install on your computer.

The screenshot shows the FileZilla project website. At the top is the FileZilla logo with the tagline "The free FTP solution". Below the logo is a navigation menu with links to Home, FileZilla (Features, Screenshots, Download, Documentation, FileZilla Pro), FileZilla Server (Download), Community (Forum, Project page, Wiki), General (FAQ, Support, Contact, License, Privacy Policy, Trademark Policy), and Development (Source code, Nightly builds, Translations, Version history). A red promotional banner for "FileZilla Pro" is visible, stating "The Best FTP Solution" and listing supported protocols. The main content area is titled "Overview" and contains text about the FileZilla Client and Server. Below the overview is a section for "Quick download links" with two buttons: "Download FileZilla Client" (All platforms) and "Download FileZilla Server" (Windows only).

Download FileZilla Client for Mac OS X

The latest stable version of FileZilla Client is 3.50.0

Please select the file appropriate for your platform below.

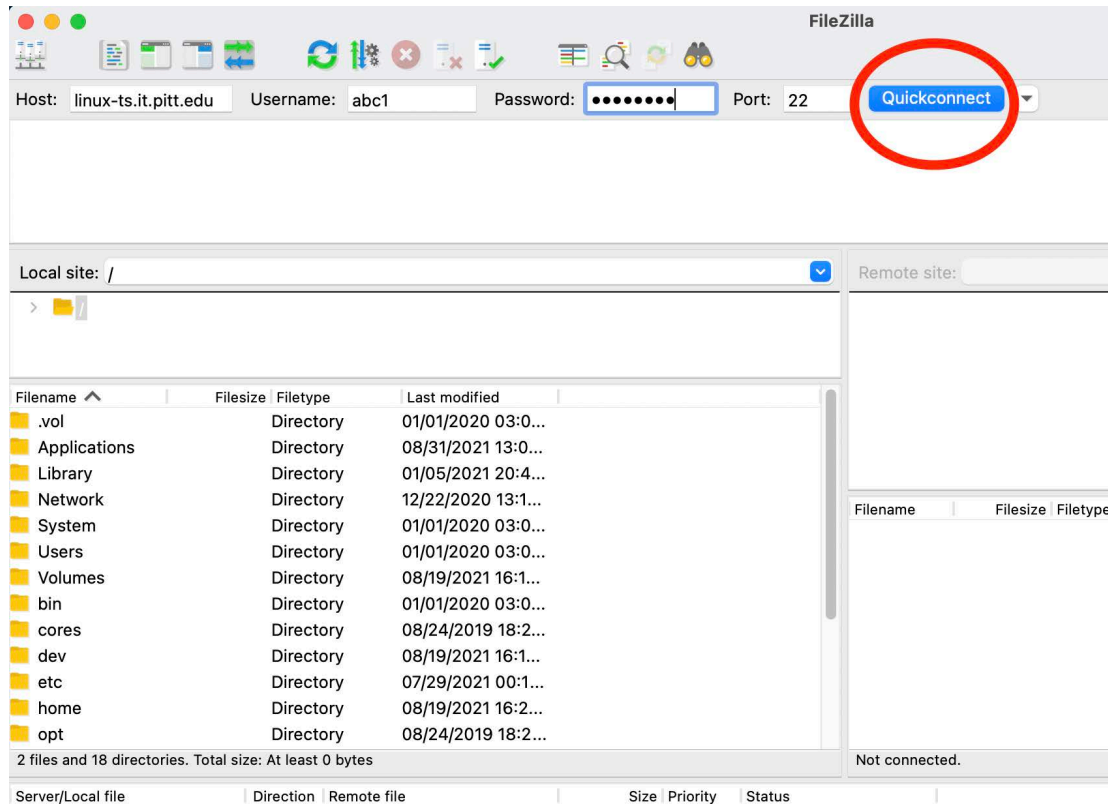

◆ Mac OS X

**Download
FileZilla Client**

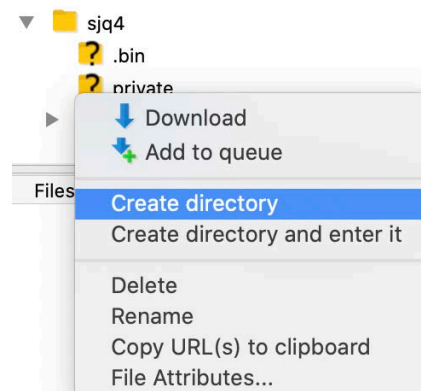

Requires OS X 10.13.2 or newer

1. Increase your Pitt server space: Go to:
Go to: my.pitt.edu.>Accounts Self-Service> Email & Messaging > Drop Down “UNIX Quota.”
2. Enter information to access your server space: Host: linux-ts.it.pitt.edu ;
Username ; Password ; Port 22
3. Click: Connect. This will open your file

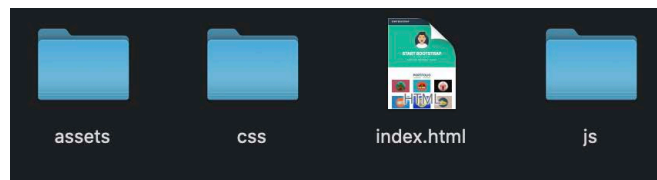

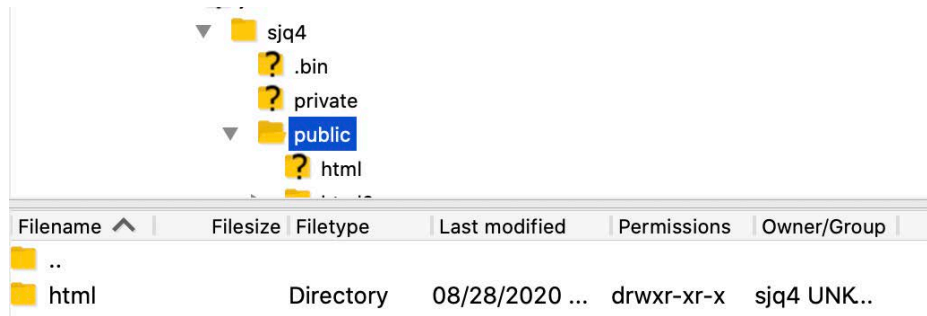

4. Double click on your name.
This will open up private and public directories.

5. Right click on your public directory.
Click "Create Directory." Name the Directory "html"

6. Copy all website project files and dump them into your html folder.
7. Now your website will run off of your Pitt Server. Go to: sites.pitt.edu/~yourusername
8. You are awesome!

(***Note, you can run multiple websites from your Pitt Server. Go into your html folder and right click>create directory>name new directory with a single word or words_with_between_them. To access this directory, go to sites.pitt.edu/~yourusername/new_directory)
